RESOLUTION NO. _____

RESOLUTION URGING THE FLORIDA LEGISLATURE TO ENACT LEGISLATION BANNING THE SALE OF ARGENTINE BLACK AND WHITE TEGUS IN FLORIDA; URGING THE FLORIDA LEGISLATURE AND THE FLORIDA FISH AND WILDLIFE CONSERVATION COMMISSION TO UNDERTAKE ADDITIONAL MEASURES TO CONTAIN THE SPREAD OF THESE LIZARDS IN THE EVERGLADES AND SOUTH FLORIDA

WHEREAS, as part of an increasingly popular international pet trade market, many exotic animals have been removed from their native habitats and placed in areas where they may disrupt the surrounding ecological environment; and

WHEREAS, the most recent of these invasive species to affect Florida is the Argentine black and white tegu, a large omnivorous species of lizard native to South America which was first spotted in the wild near a Florida City trailer park in 2008; and

WHEREAS, in 2009, when biologists first began trapping the lizards in South Florida, they captured just 13 tegus, whereas in 2014 they caught 410 tegus, and in 2015 they captured almost 650; and

WHEREAS, such a rapid rise has many wildlife biologists concerned that the Argentine black and white tegu may become the next Burmese python, a large invasive species of snake which in recent years has established a sizeable and virtually uncontrollable breeding population in the Everglades National Park, disrupting the delicate balance of the park's food chain; and

WHEREAS, unlike Burmese pythons, however, Argentine black and white tegus can survive in colder weather than South Florida's tropical climate, making them capable of extending their territory to more temperate regions; and

WHEREAS, in fact, in the last several years Argentine black and white tegus have spread into the Florida Everglades, west to Collier County and then north to Hillsborough County; and

WHEREAS, the same conditions that allow the vast diversity of wildlife to thrive in the Everglades also enable the survival of invasive exotic species such as the Argentine black and white tegu that can disrupt the delicate balance of the Everglades' unique ecosystem; and

WHEREAS, these invaders can harm native species, some of which are threatened and endangered, and add economic burdens to private landowners and public land managers; and

WHEREAS, indeed, a growing and spreading tegu population is a threat to native wildlife such as crocodiles, sea turtles, ground-nesting birds, and small mammals; and

WHEREAS, Argentine black and white tegus are still readily available in pet stores, and trapping and selling them is still legal in Florida; and

WHEREAS, this Board would like to urge the Florida Legislature to ban the sale of Argentine black and white tegus in Florida, and would also like to urge the Florida Legislature and the Florida Fish and Wildlife Conservation Commission to undertake additional measures to contain the rapid spread of these lizards in the Everglades and South Florida,

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF MIAMI-DADE COUNTY, FLORIDA, that this Board:

Section 1. Urges the Florida Legislature to enact legislation banning the sale of Argentine black and white tegus in Florida.
